

INTEGRATED ecopaCC™ DISPENSER RANGE

EASIER AND MORE SUSTAINABLE DISPENSING
FOR LONG LASTING PERFORMANCE

INDUSTRY 

CORDLESS DISPENSER

ELECTRAFLOW DUAL ULTRA 600 INTEGRATED ecopaCC

Learn how ecopaCC manual dispenser works

The new ergonomic steel frame design specifically incorporates the support sleeve to load and unload the new ecopaCC cartridge.

APPLICATIONS

Bonding

Sealing

FEATURES

Smart concept for strong performance

Slide and rotate barrel for smooth cartridge loading and unloading

Front plate docking feature for quick and easy cartridge exchange

Safe, secure attachment of ecopaCC cartridges

Solid and robust design

High quality aluminum handle and steel frame construction

Cordless, manual and pneumatic product designs

BENEFITS

Better workflow with less time and effort

Minimize downtime and increase your productivity through quick and seamless exchange of cartridges

Users work safely and fluently while the sleeve and cartridge are securely integrated in the dispenser

No need to buy or use a separate sleeve as an additional part for the ecopaCC dispensing solution

With the durable and compact solution users easily meet the daily requirements of professional dispensing

Easy to clean, effortless and comfortable to operate for a precise and efficient performance

ecopaCC provides flexible solutions perfectly tailored to optimize your business processes

Manual dispenser
VBM 300X 1:1 Integrated ecopaCC

Pneumatic dispenser
VBA 300A 1:1 Integrated ecopaCC

INTEGRATED ecopaCC DISPENSER RANGE

REDUCE YOUR CARBON FOOTPRINT WITH THE NEXT DISPENSER GENERATION

Experience the ecopaCC sustainable dispenser range designed to support the sustainable ecopaCC cartridges that fold flat, reducing space for transport and storage, lowering your carbon footprint.

The ecopaCC dispenser range benefits from existing proven technology and new frame design to support the new ecopaCC cartridges, ensuring smooth and optimum material as well as professional dispensing. It is the perfect device for applying adhesives and sealants whilst sustainable and more economical friendly.

The robust high quality aluminum handle and steel frame construction includes easy clean, optimum comfort and effortless use as well as minimum trigger pressure for durable and reliable performance

The new ergonomic frame design has been specifically designed to incorporate the support sleeve to load and unload the new ecopacc cartridge range.

Four reasons to use Integrated ecopaCC

Apply 2-component materials with ease

No need to buy support sleeves

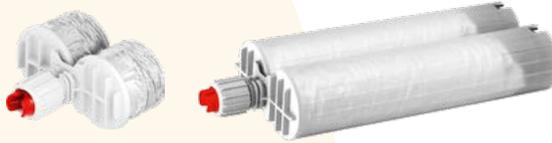

A more sustainable solution

No longer worry about losing or breaking support sleeves

The benefits of ecopaCC cartridges

Up to 75% less waste

The unique collapsible cartridge that collapses improves your eco-balance as manufacturer or filler.

Remarkable cost savings
Throughout your value chain on transportation, storage and disposal

Enhanced performance
due to improved barrier properties and shelf life

100% Compatible
with our wide range of dedicated dispensers and mixing tips for best results

Environmental friendly
Improves your ecological footprint and contributes to global initiatives

KEY BENEFITS

Integrated sleeve

For easy, hassle free ecopaCC dispensing.

Easy dock position

For loading/unloading and resting when not in use.

Slide and rotate design

For ease of use when replacing the cartridge.

Upright loading position

For one handed cartridge replacement.

CUSTOMIZED SLEEVES

IMPROVE YOUR CUSTOMER EXPERIENCE

Benefit from the option to customize the sleeves of the integrated ecopaCC solution **with your, or your customer's branding**. You boost your sales while improving your customer experience.
